VERSE 1 (singles or keep playing intro)

```
                      | A       E           |
There must be a  God, I believe its
D                     F#m    | A
true. Cause I can see His  love,
         D       | E                  F#m   |
when I look at  you. And he must have a
A              E      | D                  F#m
plan for this crazy  life. Because He brought
      | A                          D      | E
you  here and placed you by my  side.
```

CHORUS

```
              | D                A       |
And I have  never been so sure of
F#m          E            | D          A
anything before. Like I  am in this moment
              | E              | D             A
here with  you. Now for  better or for worse
                | F#m             E
are so much  more than only words.  And I
Bm                          | F#m         |
pray everyday will be the  proof. That I
D              A            | E     F#m       |
mean what I say when I  say 'I do'. Yeah I
D              A            | E  pause3  1st_time |
mean what I Say when I  say            (I Do)

INTRO

VERSE 2

```
                                | A                |
You see these hands you  hold, will always
E          D                | A
hold you up. When the  strength you have
           | D      E              | F#m
just aint  strong enough. And  what
            A             | E        D         |
tomorrow brings,only  time will tell. But I
F#m          A                | D      E
will stand by you in sickness  and in health.
```

CHORUS

BRIDGE

```
           | D                    | A
Take my  hand and take this  ring. And know
      | F#m                                | E          |
that  I will always love you through  anything.
E              pause2   F#m          | A singles
Yah A-A-Ah. And as the years march  on like
  E        | D             F#m       | A
a beating  heart. I will live these  words
           D      | E
'til death do us  part'
```

CHORUS

```
              | D                A       |
