VERSE 2

```
C                                  | C
Now most of the people who re  tire in Florida
      | G                            | G
Are   wrinkled and they lean on a   crutch
        | G7                         | G7
And   mobile homes are smo  therin' my keys
  | C             C_XX03       | C7    C_XX01
I   hate those bastards so   much
            | F                        | F
I wish a   summer squall would   blow them
          | C                    | Am \      Asus4 \
All the   way up to fantasy         land
Am \\                 | D                          | D

                  | F           G          | C     |
They looked a   lot better as beer   cans
```

CHORUS

```
C             | Am                       | Am
Yeah and   that's why it's still a   mystery to me
        | G                              | G |
Why   some people live like they   do
Am                        | Am
So many nice things   happenin' out there
         | D7                       | G
They   never even seen the   clues
            | F                            | F
Oh, but   we're doin' fine, we can   travel and rhyme
  | C                          | Am
I   know we been doin' our   part
          | F                          | C
Got a   Caribbean soul I can   barely control
